

Discover easy!

We have the solutions to make your daily work easier!

KaVo master
series

Enjoy maximum power with innovative KaVo comfort.

KaVo expert
series

Achieve more with reliable KaVo performance.

KaVo smart
series

Work safely with affordable KaVo quality.

KaVo. Dental Excellence.

Product details and features that make it easy for you.

KaVo turbine technology sets the standard. One hundred years of experience and more than five million KaVo handpieces sold indicate KaVo's Dental Excellence throughout the world. We value precision, safety and long-term reliability. The KaVo Master Series, Expert Series and Smart Series cater for all price levels without any compromise on comfort or quality. Innovative solutions make KaVo handpieces particularly attractive. The long availability of replacement parts and the durability of the units protect your investment.

Find out for yourself.

● ● Long service-life
Robust stainless steel casing

● ● ○ Precise cooling
Pressure-independent 4-nozzle spray

● ● Perfect concentricity
Carbide guide sleeve

● Extremely low-noise
Due to the flow-optimised Silence Technology

● ● ○ Long service-life
Ceramic ball bearing

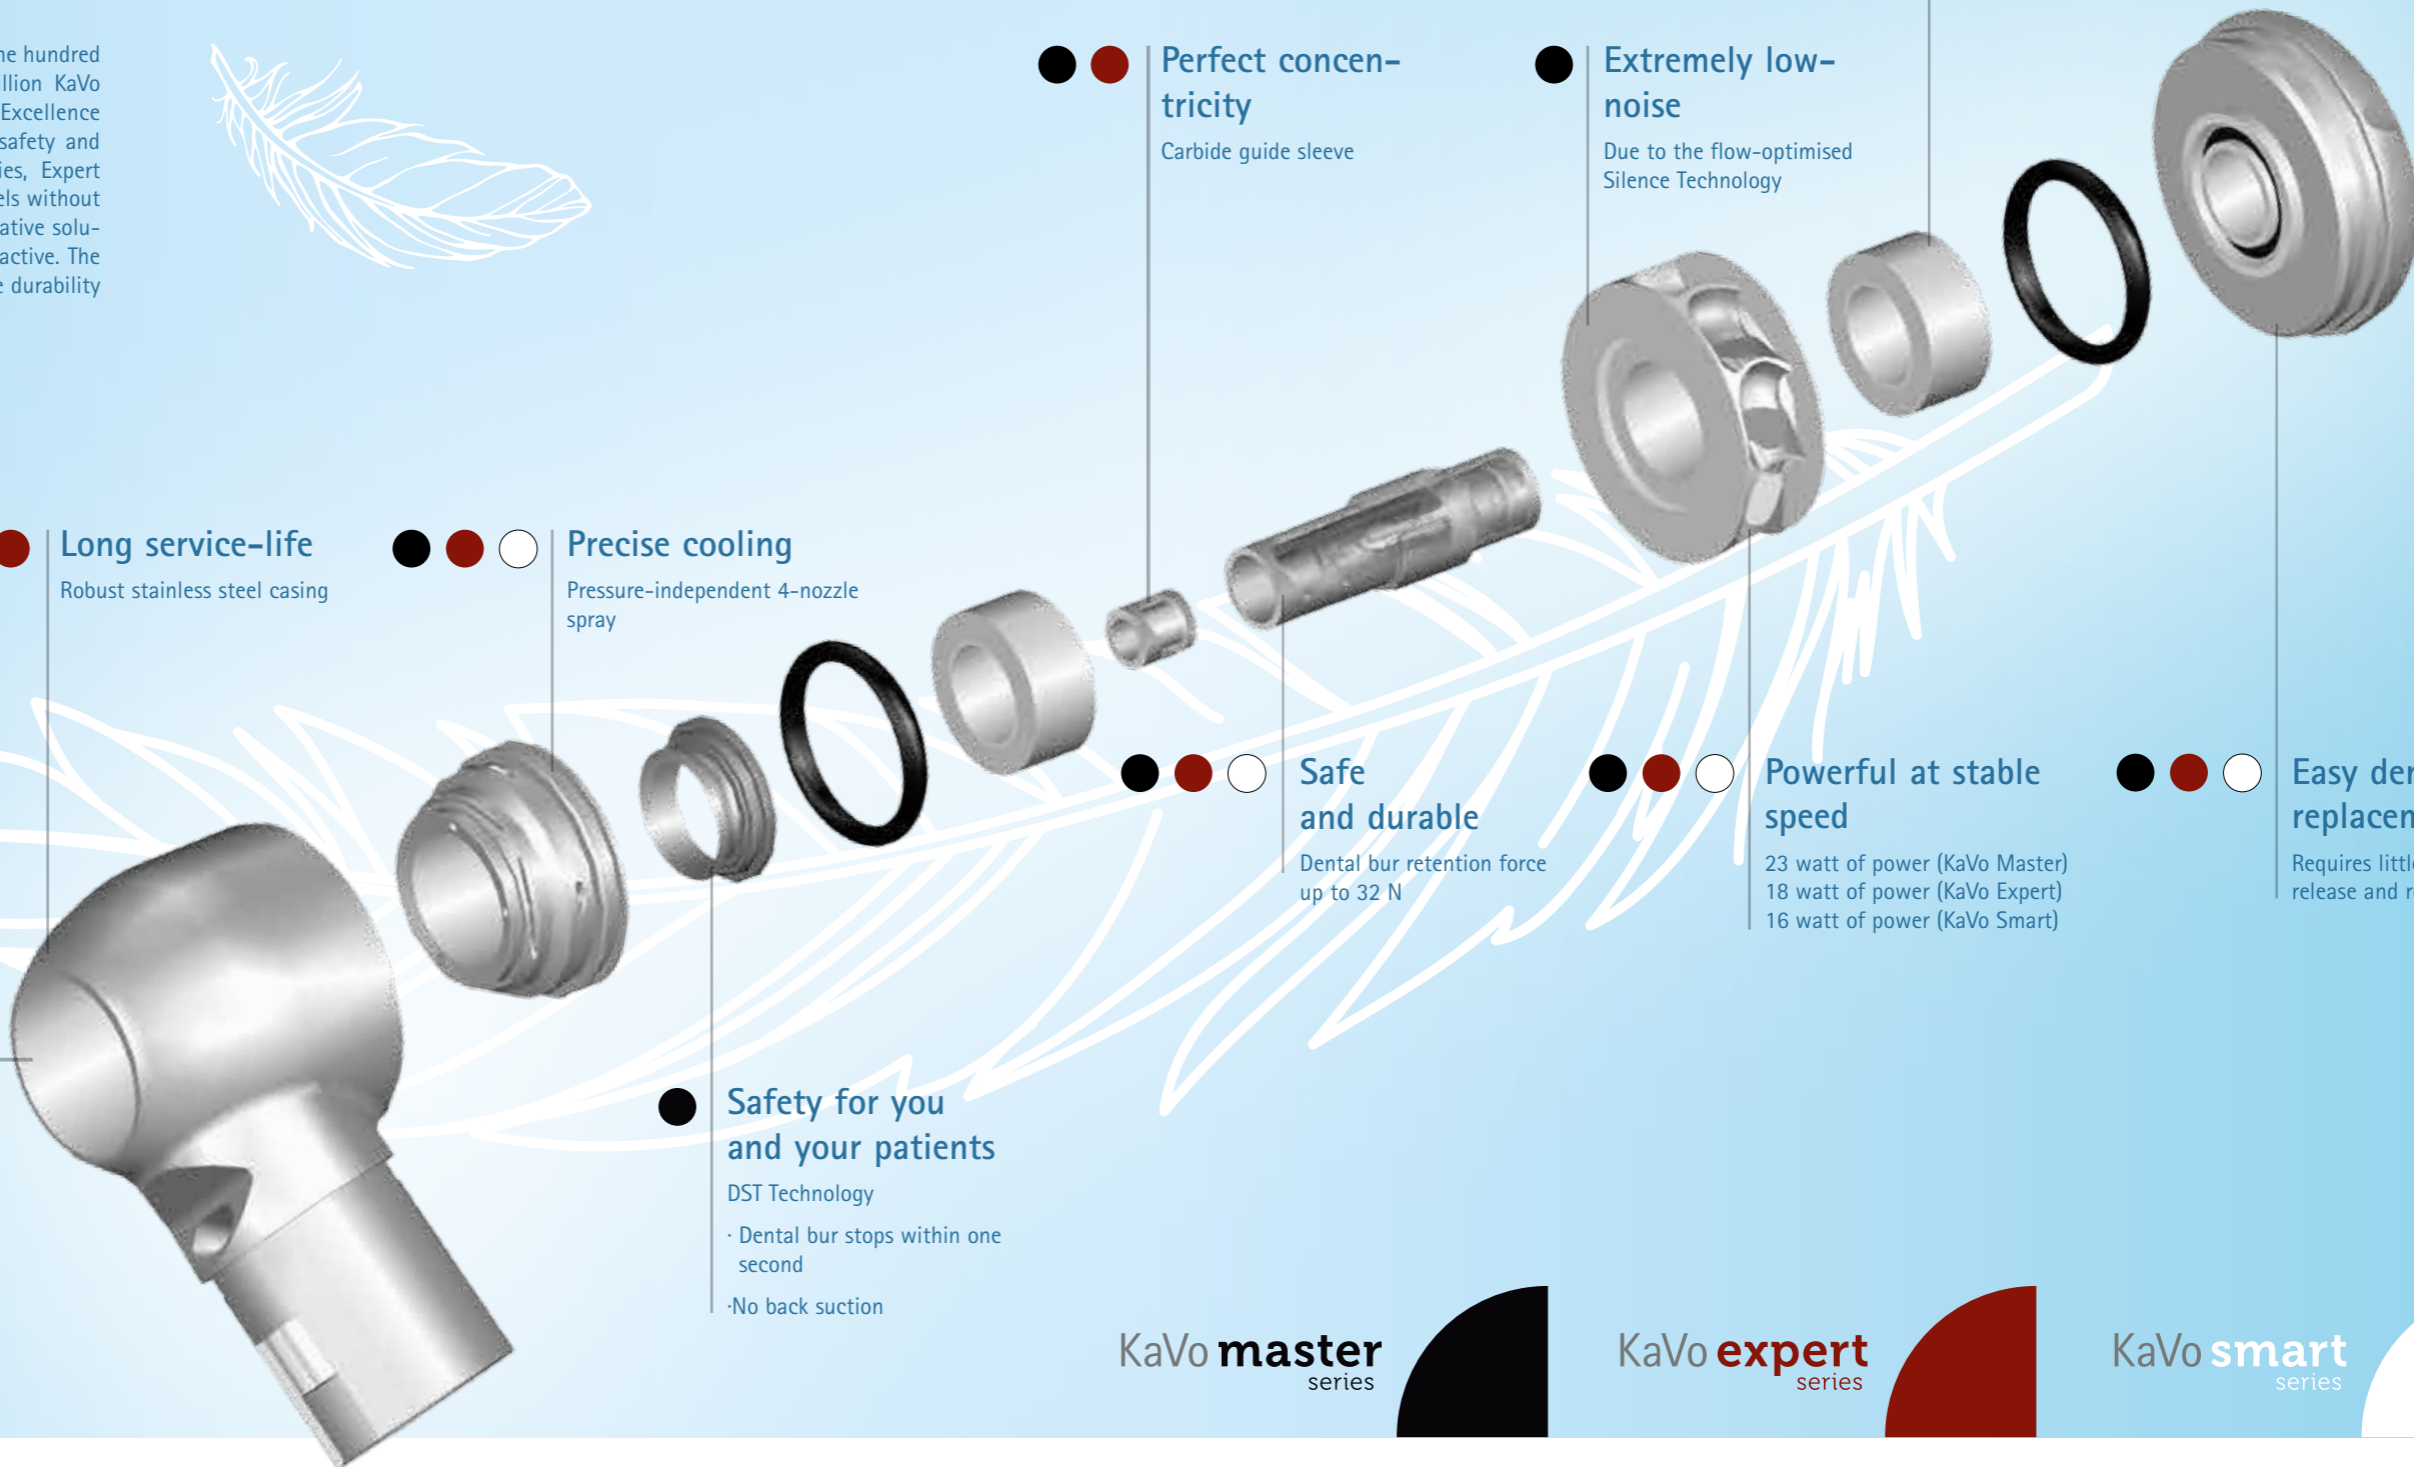

● ● ○ Safe and durable
Dental bur retention force up to 32 N

● ● ○ Powerful at stable speed
23 watt of power (KaVo Master)
18 watt of power (KaVo Expert)
16 watt of power (KaVo Smart)

● ● ○ Easy dental bur replacement
Requires little force to release and replace

● Good visibility and accessibility
Small head height

● Safety for you and your patients
DST Technology
· Dental bur stops within one second
· No back suction

KaVo **master** series

KaVo **expert** series

KaVo **smart** series

Finest technology, made so easy.

Perfect visibility

- Polished focussed fibre optics
- Unobstructed cone of light to the bur

Easy accessibility

Angle combination 100° / 19° head/knee angle

Slip-proof and perfect grip

Plasmatec surface

Free flowing spray

Water filter

Variable connection pressure range

Passive pressure control

Universal

Various coupling models

Easy solutions for any requirement.

KaVo smart series

Ergonomics

- Ergonomic shape
- Small head (height: 14.5 mm)

Power

- 4-nozzle spray
- High power (16 W)
- Low operating noise (65 dB(A))

QUALITY

- Strong chuck retention force (up to 32 N)
- MULTIflex coupling - easy to change
- MADE IN GERMANY
- 12-month guarantee

KaVo expert series

Ergonomics

- Ergonomic shape
- Small head (height: 13.8 mm)
- 100°/19° head/knee angle

Power

- 4-nozzle spray
- High power (18 W)
- Low operating noise (62 dB(A))
- Low back-suction
- Carbide guide sleeve
- Flexible coupling versions

Quality

- Strong chuck retention force (up to 32 N)
- MULTIflex coupling - easy to change
- Water filter
- MADE IN GERMANY
- 18-month guarantee

KaVo master series

Ergonomics

- Ergonomic shape
- Small head (height: 13.1 mm)
- 100°/19° head/knee angle
- Plasmatec surface
- Improved head design (illumination and visibility conditions)

Power

- 4-nozzle spray
- High power (23 W)
- Silence Technology: Low operating noise (57 dB(A))
- Carbide guide sleeve
- Passive pressure control
- Flexible coupling versions
- Direct Stop Technology: Zero back-suction / dental bur stops within 1 sec.

Quality

- Strong chuck retention force (up to 32 N)
- MULTIflex coupling - easy to change
- Water filter
- MADE IN GERMANY
- 24-month guarantee

More safety and power with ease.

KaVo **master** series

The compact ergonomic design of the KaVo Master Series and its unique light concept ensure optimal working and viewing conditions in the preparation area. It offers up to 23 watt peak power for comfortable and efficient preparation. Silence Technology combined with further frequency optimisation provide low-noise operation. The new Direct Stop Technology (DST) reduces the stopping time of the bur by approx. 60 % to allow you to work in a relaxed and safe manner.

Convincing features of the KaVo Master Series:

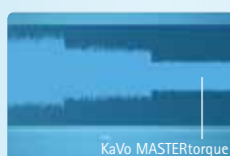

More safety

- Due to the DST Technology, the dental bur stops within one second
- No back-suction

Peak power

- Up to 23 watt of power
- Vibration-free running properties

Low-noise

- Minimal noise due to flow-optimised Silence Technology

Perfect handling

- Slip-proof and optimal grip due to Plasmatec surface
- Easy accessibility due to 100° / 19° angle combination and smallest head size

Optimum of price and power with ease.

KaVo **expert** series

Real experts know their strengths. The KaVo Expert Series, perfectly supports your daily work to ensure a trouble-free workflow with minimal servicing and cleaning requirements. The KaVo Expert Series foregoes superfluous extras so you can rely on efficient equipment, proven through millions of treatments throughout the world.

Features of the KaVo Expert Series:

Quickly ready for use

- Extremely easy filter change
- Easy and rapid cleaning and perfect spray at all times

Superior visibility

- Glare-free illumination of the preparation area

Optimal handling

- Easy accessibility due to 100° / 19° angle combination
- Small head dimensions

Perfectly efficient

- Highest durability and reliability leading to cost savings in the long term

An easy overview.
